

PROFILE

Lorraine Snape studied MA Fine Art at Chelsea College of Arts (UAL) and continues her practice at ASC Studios in Brixton. In December 2020 she was part of a small team at Chelsea College who curated the online Late at Tate Britain event to coincide with Turner's Contemporary World exhibition. December's Late at Tate Britain, which is currently showcased on Tate's website, includes one of her short films. Snape was delighted that in 2020, despite additional challenges posed by a global pandemic, she had the opportunity to start exhibiting outside of the UK, including at the prestigious Museum of Medical Sciences in Henan, China. She continues to show regularly in the UK and internationally.
